Blundstone gumboots are a fantastic all-rounder. Crafted from a durable PVC/nitrile compound, ensuring longevity and reliability. The fully removable contoured footbed offers comfort, while the reinforced ankle, heel, and instep, add practical support. With an ergonomically engineered toe spring, it helps to reduce wearer fatigue during extended use. Proudly made in Tasmania.

Bogs Classic High gumboots are perfect for whatever conditions you put them through. They are made with durable rubber that keeps water and mud away from your feet while maintaining comfort and durability. Bogs gumboots are contoured for better support and movement and provide excellent traction on any surface.

Awaken Seed Treatment

Treating your seed with Awaken has been shown to improve early vigour after emergence, increase yield potential compared to untreated seed, and enhance root biomass—making Awaken an excellent choice for seed treatment.

Seed treatments protect seeds from diseases, pests, and environmental stressors while also enhancing germination and early plant growth. The benefit of a nutritional seed treatment is that it introduces vital nutrients to the seed before growth begins, ensuring better access to essential elements. Nutritional seed treatments can also improve leaf emergence and elongation rate, leaf number, tiller appearance rate, plant height, crop growth rate, leaf area index, and specific leaf area in wheat cultivars.

Awaken features Zinc Ammonium Acetate, which enhances root vigor. Loveland's ACA technology combines Zinc Ammonium Acetate with micronutrients to create a seed treatment that both protects and nourishes. These micronutrients—Zinc, Boron, Copper, Iron, Manganese, and Molybdenum—work together to maximise yield.

Contact us to discuss Awaken and other seed treatments available at Tara Rural Supplies and Condamine Seeds & Tyres.

It has been an exciting March for us at Tara Rural Supplies and Condamine Seeds and Tyres. Make sure you take a look at page one for events that are upcoming around our community. Our big news this month is that we are looking for a qualified Tyre fitter to join our team at Condamine Seeds and Tyres.

To find out more give us a call at (07) 4627 7222. We are also in talks about running a carbon course for those who are interested in learning more about Carbon Sequestration and farming. At present we will be running a one day course in August (Date and Time TBA). If you are interested, please let us know by calling (07) 4665 3366.

Stephan Steere has been an integral part of the team at Condamine Seeds & Tyres.

As a qualified tyre fitter, Stephan has fitted tyres to many vehicles, from lawn mowers to earthmoving equipment—both in the shop and during callouts.

We greatly appreciate Stephan's dedication and contributions during his time with us. After 19 months at Condamine Seeds & Tyres, he will be finishing up his role as a tyre fitter on April 11th. We thank Stephan for his time with us.

Soil Testing and Agronomy Services

Tara Rural Supplies and Condamine Seeds offer soil sampling. Our corer is up and running and ready to help you determine the quality of your soil. Our sampler takes cores of up to 1 meter deep and with it, our agronomists can test for available nutrients in your soil. Call the shop and speak to our agronomist Andy to book your soil test.
